

## DFW Tracking Club Presents Tracking for the 21st Century With John & Darlene Barnard

This husband and wife team have over 60 years in tracking. Darlene and John both have CT German Shepherd Dogs, with Darlene's dog, Annie, being the first CT dog in the country. She has over 25 years in tracking and obedience and John has been training dogs in tracking, obedience and ANY type of scent work imaginable for over 45 years. They have trained various breeds in all levels of tracking including but not limited to GSDs, Rottweilers, Golden Retrievers, Great Danes, Westies, Vizslas, Bassets, Labs, Chihuahuas, Greater Swiss Mt. Dogs, Belgian Sheepdogs.

Their unique training style comes from the belief that all tracking, TD, TDX and VST, should emphasize the dog working scent as its foundation. Their program is suitable for all breeds and their different tracking styles. This will be a working seminar for all levels with an emphasis on VST and scent work to produce a well trained TD, TDX and VST dog. We will cover scenting problems, training problems, starting new dogs, handling and handler errors.

The seminar will be held at the American Airlines fields at DFW Airport. Breakfast and lunch will be provided each day. Participants should bring their own chair.

Date: January 13-14, 2007

Time: 8am—5pm

Location: AA Credit Union, 4155 Amon Carter Blvd.

Cost: \$120 working spot (limited to 15), \$100 observer

Make check payable to DFWTC and send to:
